FCPS Resources:

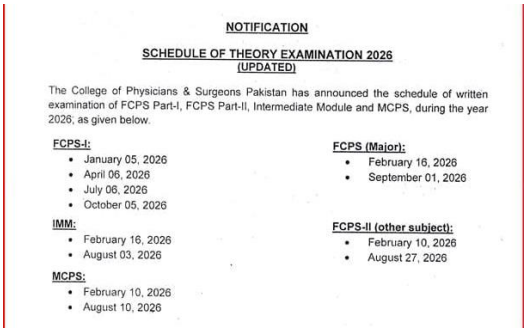

About FCPS:

- Conducted 4 times a year, every 2-3 months
- 100 mcqs in Paper 1 (2 hrs), 100 mcqs in Paper II (2 hrs)
- Paper 1 has GENERAL ALL SUBJECT MCQS- Whole syllabus - It's the same for every speciality exam be it radio or medicine
- Paper 2 is "Somewhat" Speciality specific - Not completely specific
- It's computerized, You are provided laptops and you select MCQs on that
- You've to secure 75% marks in Each paper to pass
- Marks of each mcq are different, can be of 1.2 , 2.6 marks, no one knows which mcq carries how many marks
- You just have to pass the exam, neither the marks obtained matter nor do they declare marks.
- The students who pass have pass written on their result, The ones who fail : Their exact marks are written
- All mcq books are based on "RECALLS" which means No one knows exact mcqs

  The students who appear in exam, recall and send the mcqs to author, which they publish

  Don't think CPSP provides any such mcqs

Hajji'23

It's a Past mcq Book , Look at index and you'd get to know how papers are arranged in it
It's Published Almost after every attempt or after 2 attempts
Latest was published after August Attempt 2025 and it's SK 21
3) **DOUBLE A** --> It's a past Mcq Book

Now this Book Double A has a different arrangement
These are TOPICAL Past paper mcqs
So whenever you do a topic, start with double A mcqs of that topic
And after you're almost done with preparation, Do SK Series
Double A is published once after every year (Latest edition is 4th edition which was published in June 2025)
4) RAFI Golden points:

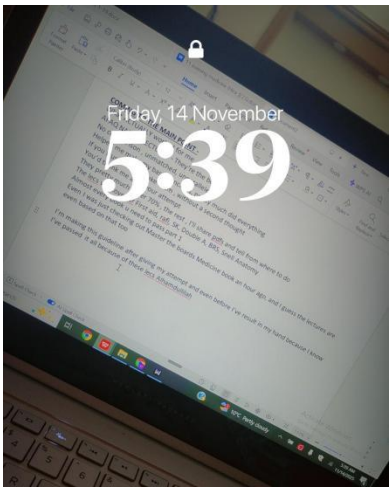

- You'll hate this book because of A lot of reasons
- Basically what is rafi? It's a one liner book based on all past mcqs
- There are repititions , Mistakes, no flow, abruptly a new topic starts
- Solution?
  - I've already shortlisted this whole book
  - I'll be sharing organized PDFs soon when I complete their sequence and everything
  - No Matter how much you hate this book, it's a must to do it
- Latest edition is 14th edition of year 2025
  - It's published once in 2-3 years almost

COMING TO THE MAIN POINT -

What ACTUALLY worked for me
AFAQ NAEEM LECTURES - They're the best
No comparison , unmatched, unparalleled
Helped me make my basic concepts, pretty much did everything
If you trust me, just take them , without a second thought
You'd thank me after your attempt
They pretty much cover 70% , the rest , I'll share pdfs and tell from where to do
The lecs will cover ur First aid, rafi, SK, Double A, BRS, Snell Anatomy
Almost every book u need to pass part 1
Even I was just checking out Master the boards Medicine book an hour ago, and I guess the lectures are even based on that too

I'm making this guideline after giving my attempt(11 November) and even before I've result in my hand because I know I've passed it all because of these lecs Alhamdullilah

Rafi'23

- I've made notes of the lectures too, I'll type and then share them
  They're based on Afaq Naeem lecs + Double A + Rafi + SK , pretty much cover everything
- In the next pdfs I'll tell how to cover which topic in what way

- Do NOT listen to those who say "Past papers aint repeated now"
  OR " First Aid is'nt necessary"
- 25% past papers are ALWAYS repeated in one way or another
  Of course same statement wont be there - same concept would be
- I've also shortlisted SK series, SK 19, Sk 20, SK 21 with all correct and verified options, I'll share after organizing, you'd find then in this same drive when I upload them
- I'll keep uploading these general information pdfs whenever I get queries or remember anything to tell, so keep checking this drive link
